

My Friend HIPAA

P. Leidy

I'm looking out for you baby, you know that's a fact
Won't let nobody hurt you, you know got your back
I'm the Health Insurance Portability and Accountability Act

Baby baby baby I'll protect your privacy
Your personal information is safe thanks to me
The most important thing is, confidentiality

(refrain)

Give me an H, give me an I
Give me a P and I'll tell you why
Now give me a big ol' A and then one more A
HIPAA gonna take all your blues away

If you go to your doctor, cause you ain't feeling well
You wonder what's the matter, but I won't let that doctor tell
I protect your privacy, even from yourself

If your friend is looking for you, I'll tell you what I'd say
If they asking about you, I'd send them away
Your friend ain't got no business violatin' your rights today

(refrain)

I treat everyone equal, everybody the same
I'll make sure your neighbors don't even know your name
That would be a violation—HIPAA's not a game

I'm HIPAA and you know it, just protecting you
I got important paperwork – forms to sign and things to do
Said I'm HIPAA sweet HIPAA, plenty of hoops to jump through

If you mess with me you'll be in bind
Pay a big fine maybe do some time
Now you've said too much, stop--don't say any more
Hipaa police knocking at your door
